

HOW WE ARE TRYING TO HANDLE THE CORONA VIRUS

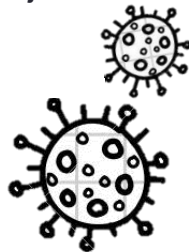

Measures to protect our clients, employees and interview participants

COVID 19: Corona measures

The current corona crisis is a serious challenge for all of us.

Therefore, we are trying our best to enable a secure and unproblematic cooperation and to protect everyone's health during this challenging time. For this purpose, we have considered various measures that allow a smooth workflow without any major concerns.

What arrangements can be made?

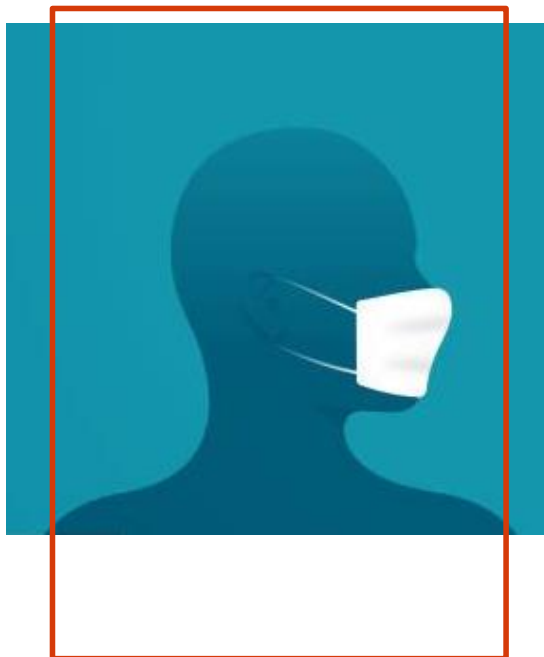

- Increased hygiene measures
- Installation of disinfectant dispensers and hand sanitizers
- Adhering the required distance regulations (e.g. one-way directions in the studios)
- Additional protection measures for clients, interviewers and respondents

Increased hygiene measures

Distribution of protective gloves

If requested, we are happy to offer protective gloves for customers and participants. Plenty of hand sanitizers are also available!

Masks for participants and clients

If the participants and clients do not possess a face mask, we will provide one

Regular disinfection of surfaces and objects

Thorough disinfection of all surfaces and objects such as door handles etc.

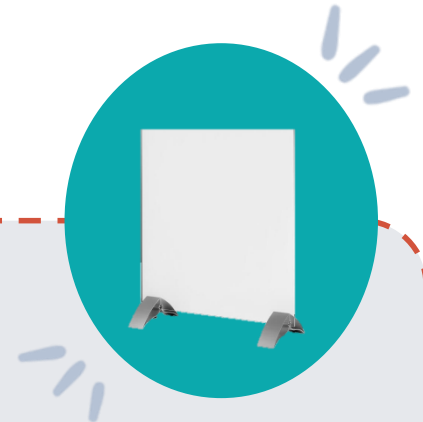

Additional protection measures

Acrylic glass dividers

...with excellent visibility

...serve as transparent room dividers

...bacteria and viruses can be easily wiped off of the non-porous surface

The acrylic glass walls allow a **secure conversation without any loss** of quality. The dividers can be used for both - group discussions and individual interviews.

Additional protection measures

Use of air purifiers

- ... reduces the spread of pathogens
- ... decreases the density of bacteria indoors
- ... multi-stage filters eliminate the pathogens almost completely and do not release them again

To create a safe environment for our clients, participants and employees, we rely on air purifiers that significantly reduce the concentration of pollutants, **viruses and bacteria in indoor spaces**. This ensures the best possible protection of the survey rooms.

WE ARE LOOKING FORWARD TO A SUCCESSFUL AND SAFE COOPERATION

We look forward to seeing you in Nuremberg, Cologne, Hamburg, Stuttgart, Berlin, Essen, Bochum, Frankfurt, Leipzig and Munich
